

FILMING GUIDELINES

Hobsons Bay City Council

Hobsons Bay offers a variety of locations suitable for filming including heritage streetscapes, coastal areas, park lands and industrial landscapes. Permission is required for all filming and commercial stills photography on Council land. These guidelines provide information to help develop your filming plan, including the application process, fees, your responsibilities and any statutory permits that may be needed.

1. Permits

In order to film or associated activity to take place on Council-managed open space, streets and facilities, a completed Filming Application must be submitted and be approved. If filming in or around Council-owned buildings, a "Location Agreement" may be required in addition to the council's "Film Permit Application" form. If your filming meets the criteria of 'low impact' you may not require a permit, please refer to item 2 for the definition of low impact filming and details of the application process.

2. Low Impact Filming

If your filming activities are minor and fall within the Low Impact Filming Criteria (detailed below), you can complete a Low Impact Filming Request form. The low impact filming criteria is as follows:-

- 2.1. The filming activity involves eight people or less on site (inclusive of all production crew and talent).
- 2.2. You have no more than one camera and one tripod and handheld sound recording equipment. No lighting, camera tracking devices, vehicles, large props or generators are permitted.
- 2.3. Your activities do not disrupt stakeholders (traders, residents and businesses) or motorists.
- 2.4. All public pathways/footpaths/cycling paths and roads must not be blocked – a minimum of 1.8 m metres is required on footpaths at all times.
- 2.5. You have sought consent from those directly affected.

If your filming meets these criteria, please complete the Low Impact Filming Request form available on our website. Notification of low impact filming must be provided two (2) business days prior to the proposed filming activity.

If your filming does not meet the Low Impact Filming Criteria, you will need to submit a Filming Permit Application form.

3. Administration

The staff of the Events and Visitor Services Unit are the Council's first point of contact for filmmakers and their crew, and liaises with other departments and external authorities to assess and ensure that traffic management requirements are met and that public and commercial spaces and council facilities are utilised appropriately.

4. Notification to Council

Film crews should contact Council's Events and Visitor Services Unit directly regarding the intention to film, no later than five (5) days prior to filming. A filming permit application must be submitted to Council at least three (3) business days prior to the commencement date of filming activity. It is recommended that applications that involve high impact activities, including traffic and pedestrian management planning, should be submitted at least five (5) business days prior, to allow time for these extra measures to be considered by Council.

5. Stakeholder Communication

Film makers will be required to notify in writing residents, organisations or businesses which may be affected by their filming activities as follows:

- Residents: A minimum of 48 hours' notice
- Businesses: A minimum of three (3) business days prior to filming commencing.

A copy of written notification must be provided to Council, which should include:

- Name of a contact person on site (to handle enquiries and complaints);
- Dates and times for start and finish of set-up and filming; and
- Details of the use of firearms, stunts, explosives or other items of potential concern.

In addition, you should provide Council with details of which residences and businesses have been advised of your intention to film. The Council officer will notify the relevant traders' association of the filming activity.

6. Fees

A standard fee structure is applied for film permits for filming activity in Hobsons Bay, limited to those areas under the Council's jurisdiction. There is an initial charge for the first day of filming for any one project. A lower daily rate applies for any subsequent days. The phrase 'any one project' relates to one feature film, one television commercial, one season of a television series or one season of a television serial. Fee waivers apply to student films and projects promoting Hobsons Bay directly. Fees cannot be waived retrospectively. In the majority of applications the permit fee charged covers the full service provided by Council. A user pays system may apply where additional Council services are required or when certain activities take place.
