Background

The Local Government Act 1989 (the Act) requires council to prepare a strategic resource plan (SRP) for at least the next four financial years that describes both the financial and non-financial resources required to achieve the strategic objectives in the council plan. In preparing the SRP, council must take into account services and initiatives contained in any plan adopted or proposed to be adopted by council.

Council has prepared a SRP for the four years 2018-19 to 2021-22 as part of its integrated planning framework. The following diagram shows the relationships between the key planning and reporting documents that make up the planning and accountability framework for local government. It also shows that there are opportunities for community and stakeholder input and feedback at each stage of the planning and reporting cycle. This is important to ensure accountability to residents and ratepayers.

The council plan includes the strategic objectives, strategies for achieving these for at least the next four years and strategic indicators for monitoring achievement of the strategic objectives. The SRP is a plan of the resources for at least the next four years required to achieve the strategic objectives in the council plan. The SRP informs the preparation of the budget which is a plan that describes the services and initiatives to be funded and how they will contribute to the achieving the strategic objectives in the council plan.

Objectives of the plan

The key objective, which underlines the development of the SRP, is financial sustainability in the medium to long term, while still achieving Council's strategic objectives as specified in the Council Plan. The key financial objectives, which underpin the SRP are:

- generally maintaining existing service levels
- achieve operational surpluses each year
- maintain a robust capital works program with a focus on asset renewal
- achieve balanced financial (rate determination) results
- increases are required to cash reserves to take into account increasing future commitments

In preparing the SRP, council has also been mindful of the need to comply with the principles of sound financial management in the Act which requires council to:

- prudently manage financial risks relating to debt, assets and liabilities
- provide reasonable stability in the level of rate burden
- consider the financial effects of council decisions on future generations
- provide full, accurate and timely disclosure of financial information

The SRP is updated annually through a rigorous process of consultation with Council service providers followed by a detailed sensitivity analysis to achieve the key financial objectives.

How the plan was developed

This SRP has been developed through a rigorous process and is based on the following key information:

- audited financial statements as at 30 June 2017
- the most recent year end forecasts presented to Council for the 2017-18 financial year
- assumptions provided by council service providers about changes in future income and expenditure
- assumptions provided by council capital works expenditure providers about requirements for future asset renewal, expansion, upgrade and new assets
- assumptions provided by finance regarding future changes in assets, liabilities and equity
- information provided by the executive management team and council

The financial projections included in the SRP have been developed using a 'four-way' budget model. This methodology enables the linking of the comprehensive income statement, balance sheet, statement of cash flows and statement of capital works.

Key operational income and expenditure assumptions

The general key assumptions affecting operating income and expenditure include the following:

	2018/2019	2019/2020	2020/2021	2021/2022
	%	%	%	%
Rate increases	2.25	2.25	2.25	2.25
Property growth	0.4	0.4	0.4	0.4
Wages growth	2.0	2.0	2.0	2.0
Government funding	2.5	2.5	2.5	2.5
Statutory fees	3.0	3.0	3.0	3.0
Investment return	2.0	2.0	2.0	2.0

The general assumptions affecting assets, liabilities and equity balances are set out below:

- trade creditors and other receivables are expected to increase by 2.5 per cent, apart from receivables with defined repayment schedules
- property, infrastructure, plant and equipment valuation rates have not changed. The total value has increased due to the identification of purchases, less disposals and depreciation
- trade and other payables are expected to increase by 2.5 per cent, apart from payables with defined repayment schedules
- employee provisions are increasing to take into account projected pay increases and growth of 1.5 per cent
- interest bearing liabilities are included as per defined repayment schedules. All loans are drawn down as part of the MAV Local Government Funding Vehicle and are currently included as interest only repayments. Transfers to a loan repayment reserve are being used to ensure that funds will be available to repay principal when the loans mature

Borrowings

In developing the Strategic Resource Plan (SRP) borrowings can be used as an important funding source for capital works programs. In the past, Council has focused on a debt reduction strategy, only borrowing to fund defined benefit superannuation shortfalls. This has resulted in a reduction in debt servicing costs, but has meant that cash and investment reserves have been used as a funding source for capital works programs. With a focus on asset renewal from 2014-15 and beyond, Council reconsidered the issue of borrowings.

The SRP includes the results of an analysis of Council's debt position against both State averages and large council averages over a number of different indicators. It also shows the results of the 'obligations' indicators that are part of the prescribed financial reporting indicators. Despite the outcome of the analysis highlighting that a debt of \$14.2 million could be comfortably accommodated, as a result of rate capping further financial planning is required to enable Council to fully fund its capital works program, over the longer term of its long term financial plan (ten year plan). Further borrowings should only be included after other options are considered and when Council can be assured that it has the ability to fund repayments, whilst ensuring financial sustainability.

Council has decided not to take out any new borrowings to fund the capital works program in 2018-19 or any other year contained in the SRP. Due to Council's involvement in the Local Government Funding Vehicle and the issuance of interest only bonds, no principal repayments are included within the SRP until 2021-22. The following table sets out future proposed borrowings, based on the forecast financial position of Council as at 30 June 2018.

Year	New Borrowings \$'000	Principal Paid \$'000	Interest Paid \$'000	Balance 30 June \$'000
2017-18	-	-	626	14,200
2018-19	-	-	626	14,200
2019-20	-	-	628	14,200
2020-21	-	-	627	14,200
2021-22	-	9,200	357	5,000

Infrastructure and capital works

Council has developed an Infrastructure Strategy based on the knowledge provided by various Asset Management Plans, which sets out the capital expenditure requirements of Council for the next 10 years by class of asset, and is a key input to the SRP. It predicts infrastructure consumption, renewal needs and considers infrastructure needs to meet future community service expectations.

A key objective of the Infrastructure Strategy is to maintain or renew Council's existing assets at desired condition levels. If sufficient funds are not allocated to asset renewal then Council's investment in those assets will reduce, along with the capacity to deliver services to the community.

The following table summarises Council's forward outlook on capital expenditure including funding sources for the next four years.

Summary of funding sources										
Year	Total Capital Program \$'000	Grants \$'000	Contributions \$'000	Council Cash \$'000	Borrowings \$'000					
2017-18	32,901	2,740	1,048	29,113	-					
2018-19	43,534	1,940	-	41,594	-					
2019-20	42,625	400	750	41,475	-					
2020-21	39,600	335	750	38,515	-					
2021-22	38,978	335	-	38,643	-					

In updating the Infrastructure Strategy for the 2018-19 year, the following influences have had a significant impact:

- reductions in the amount of rate income predicted in future years as a result of the State Government rate cap legislation. This has resulted in significantly less available cash and investment reserves to fund future capital expenditure programs within the SRP and LTFP
- capital works of \$4.268 million will be carried over and fully funded from the 2017-18 financial year. The carryover figure included in the budget is based on the March forecast. Current actual capital expenditure in 2017-18 indicates that the capital carryover figure is understated. The final carryover figure will be determined after the year end accounts are finalised
- total capital expenditure of \$43.534 million with a continued focus on asset renewal within the capital works program
- unavailability of significant funding for capital works
- the enactment of the *Road Management Act 2004* removing the defence of non-feasance on major assets such as roads
- new building regulations requiring all Child Care Centres to immediately upgrade to ensure compliance

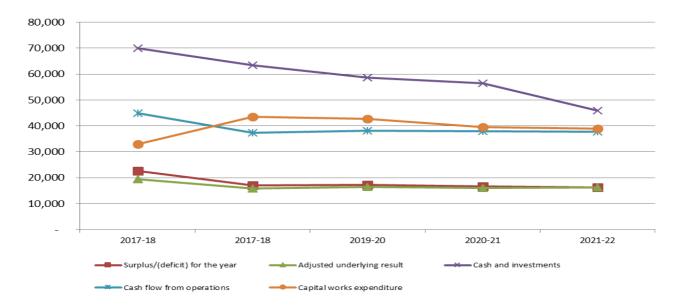

Financial outcomes

The following table and graph summarises the key financial results for the next four years as set out in the SRP for years 2018-19 to 2021-22.

	Forecast Actual	Budget	Strategic Resource Plan Iget Projections			
Indicator	2017/18	2018/19	2019/20	2020/21	2021/22	+/0/-
	\$'000	\$'000	\$'000	\$'000	\$'000	
Surplus/(deficit) for the year	22,521	17,011	17,265	16,629	16,258	-
Adjusted underlying result	19,401	15,736	16,450	15,879	16,258	0
Cash and investments balance	70,003	63,394	58,489	56,253	45,591	-
Cash flow from operations	44,955	37,351	38,148	37,791	37,673	0
Capital works expenditure	32,901	43,534	42,625	39,600	38,978	-

Key to Forecast Trend:

- + Forecasts improvement in Council's financial performance/financial position indicator
- o Forecasts that Council's financial performance/financial position indicator will be steady
- Forecasts deterioration in Council's financial performance/financial position indicator

The key outcomes of the SRP are as follows:

- financial sustainability cash and investments is forecast to decrease over the four year period from \$70.003 million to \$45.591 million. Council will utilise reserves for capital works and repay \$9 million debt
- rating levels modest rate increases of 2.25 per cent, consistent with the current rate cap, are forecast over the four years
- service delivery strategy service levels have generally been maintained throughout the four year period. Despite this, operating surpluses are forecast in all years, although they are starting to decline over the four year period. The adjusted underlying result is a measure of financial sustainability and is an important measure as once-off capital items can often mask the operating result
- borrowing strategy borrowings are forecast to be reduced from \$14.2 million to \$5 million over the four year period. No new borrowing are included within the SRP
- **infrastructure strategy** capital expenditure over the four year period is projected to total \$164.737 million at an average of \$41.184 million
