Please sign here that you acknowledge the above: _____

GUIDELINES FOR STREET STALLS

1. Introduction

Council believes that community organisations should be afforded the opportunity to use public footpaths to sell goods and services. Temporary street stalls can enhance the vitality of an area, help community organisations to remain viable and heighten the sense of 'belonging' in a community.

Council will allow temporary vending from street stalls placed on footpaths by local community organisations and registered charities for the purposes of fund raising, promoting awareness, increasing membership or attracting sponsorship for their organisation.

'Stall/Street Stall' means any market stall, stand, table, trestle, BBQ or other structure used in temporary vending.

2. The Permit

Permits will be issued for the temporary period required by the community organisation but will generally be for no more than one business day.

3. Permit holder responsibilities

The organisation is to ensure that the temporary street trading authorised by the permit is undertaken in accordance with the documentation accompanying the application, complies with the conditions of these Guidelines and with Council policy and local laws.

Permit holders will be responsible for meeting the following standard conditions for the term of a permit:

- To comply with all applicable industry standards, health or safety standards, current standards of Standard Australia or any applicable Codes of Practice.
- To comply with relevant Council local laws and policy and Council's "Footpath Trading Code of Practice".
- To comply with State and Federal legislation. The issue of the permit does not absolve the permit holder or their agents from any overriding legislation.
- To maintain in good condition and to recognised standards all structures erected or installed on or over the road.
- To indemnify and to keep indemnified the Council, its employees, servants and agents and each of them from and against all actions, costs, claims, damages, charges and expenses whatsoever which may be brought or made or claimed against them or any of them arising out of or in relation to the issuing and granting of the permit.
- To maintain a current public risk insurance policy in the name of the permit holder insuring the permit holder for the minimum sum of TWENTY MILLION DOLLARS (\$20,000,000) in the terms set out below.
- To accept total responsibility to make good any damage that occurs to Council roads or to public infrastructure as a result of the erection or installation of structures by the permit holder.
- To provide proof, upon the request of Council, of current public liability insurance at any time.
- To not assign or otherwise transfer a permit without first obtaining the consent of the Council in writing.
- To make the permit available for inspection upon request by an authorised officer or police officer.
- Permit Holders will be requested to respect pedestrians' right to peace and enjoyment and to not obstruct the footpaths or cause any pedestrian flow issues.
- At the expiration or earlier termination of this permit to remove, if so directed by the Council, any structure or object erected or installed on the road and to reinstate the road to the satisfaction of the Council.

To ensure that those operating the street stall are suitably identified and hold the permit on site for production to Council's Compliance officers, or the police should that be required.

To ensure that those operating the street stall can provide proof of identity when requested by an authorised Council employee or by the police.

In the event that the permit holder has failed to comply with any of the conditions of the permit or for any other justifiable circumstance, including reinstatement, maintenance, repair or removal, the Council may revoke the permit.
