

9 October 2020

Dear Resident/Business

### **Works notification: Preparing and tidying the area for underpass construction**

The Aviation Road level crossing was successfully removed in 2019 and the new road bridge now connects Maher Road to Aviation Road and Triholm Avenue.

Over the coming months, crews will work around the area to prepare and tidy the site before construction starts on the second phase of the project in early-2021.

The second phase of the project involves building a new pedestrian and cyclist underpass and 100 new and upgraded car parks at Aircraft Station as part of the Car Parks for Commuters Program, with works expected to be complete by late-2021.

The new pedestrian and cyclist underpass will provide a safe connection to either side of the rail line and improve access to Aircraft Station.

In addition to the new car parks and pedestrian and cyclist underpass, the second phase of the project will also include landscaping works and forecourt upgrades.

#### **What we're doing**

From Friday 9 October 2020 until early-2021, crews will begin to tidy and prepare the area before major construction begins to build the pedestrian and cyclist underpass.

This work includes replacing vegetation, clearing the site areas, installing safety fencing, placing mulch and laying gravel in the Aircraft Station car park.

#### **What to expect**

We'll work along Maher Road, Railway Avenue and near Aircraft Station. There will be no changes to the way you travel during these works.

These works aren't expected to be disruptive, however you may notice an increase in workers and work vehicles throughout the area.

We'll work intermittently during regular working hours from 7am to 6pm Monday to Friday and 7am to 3pm on Saturdays. If we need to work outside of these hours, we'll let you know in advance.

For more information about where we'll work, please see the map on the next page.

#### **Health and safety**

Works are continuing on the Aviation Road level crossing removal project with strict health and safety protocols in place.

The health and safety of our workers and the community will remain our key priority as we undertake works on the Aviation Road level crossing removal project.

We will continue to follow the directions of the Department of Health and Human Services (DHHS) as we safely complete works on this project.
