

Williamstown Main Sewer Rehabilitation Project

IMPORTANT: Upcoming Night Works

Dear Resident/s,

We wish to advise that as part of the Williamstown Main Sewer Rehabilitation Project, works will be conducted overnight between:

Sunday, 11th April to Sunday 18th April, 2021

This will enable the project team and our sub-contractors to repair infiltration points of the sewer in the alignment below Pasco St and Railway Pde.

Physical entry will be made at various points along the alignment and fan forced ventilation will operate.

This work will commence from **7pm and will be completed before 5am the next morning.**

No works will be undertaken on Friday or Saturday nights where possible.

This change in working hours is necessary to take advantage of lower flow volumes during evenings and overnight.

You may experience some noise disturbance caused by a compressor inflating a plug inside the sewer for a short period, as well as the operation of equipment to lower and then retrieve personnel entering the sewer.
