

Energy savings are very sweet

Lagoon Confectioners is an Australian-owned and operated family business established in 1929. They have been operating in their modern manufacturing facility at Williamstown North since 2000.

Lagoon Confectioner's dedication to service and quality, along with the latest technology, food and health practices, mean they have become one of the most respected names in the confectionery industry.

Lagoon Confectioners are the original makers of the famous Sherbet Bomb, one of the most recognised products of the Lagoon name.

Through Hobsons Bay City Council's Light\$mart program, Lagoon has replaced almost 70 lights throughout their factory, warehouse and office space with new, energy efficient LED lights reducing energy and maintenance costs and saving greenhouse gas emissions.

Each year, Lagoon Confectioners will now be saving an additional:

- \$5,741 in energy and maintenance costs
- 23,027 kWh of electricity
- 29 tonnes of greenhouse gas emissions
